Action and Innovation to
Restore the Environment

HEALTHY CLIMATE.
HEALTHY AIR.
HEALTHY PEOPLE.

At CleanAIRE NC we advocate for the health of all North Carolinians by pursuing equitable and collaborative solutions that address climate change and air pollution. We focus on three powerful determinants of public health: **air pollution, climate change, and environmental justice**. Our five programs work to ensure that people have clean air to breathe and a stable climate to thrive in:

ADVOCACY

Taking action for policy solutions that hold polluters accountable no matter their size or clout.

COMMUNITY SCIENCE

Working with communities to collect data on local air quality using low-cost air sensor technology.

EDUCATION

Equipping North Carolinians with the knowledge and tools they need to advance climate solutions.

HEALTH

Leveraging the trusted voices of health professionals to advocate for a healthier, more resilient future.

ENVIRONMENTAL JUSTICE

Partnering with impacted communities to address disproportionate environmental burdens.

**GET INVOLVED &
MAKE AN IMPACT
FOR GENERATIONS
TO COME!**

Become a financial supporter

Join our advocacy network to push for stronger climate & air protections

Host or sponsor an air monitor to measure pollution levels across NC

Take the lead on local climate action & become an NC Climate Ambassador
